

# Wireframes Home page Desktop-Tablet-Mobile

The desktop wireframe shows a vibrant pink header banner for a "Black Friday Sale" with "UPTO 50% OFF". Below the banner are four product categories: "Gaming Computer", "Desk Status", "Headphone", and "NOTBOOK". The main content area features five product categories: "Dome pro HM5 3110" (120 Products), and "Dome pro HM5 3110" (120 Products). The footer includes social media links for Twitter, Instagram, and Facebook, along with contact information like WhatsApp (+12 123 1234567) and email (TechMaster@Gmail.com).

The tablet wireframe is similar to the desktop version but with a smaller screen. It highlights the "Gaming Computer" and "NOTBOOK" sections more prominently. The footer is simplified, showing only the "SEGUINOS" (Social Media) section.

The mobile wireframe is highly condensed. It features a large "Black Friday Sale" banner with "UPTO 50% OFF". Below it are two product categories: "Dome pro HM5 3110" (120 Products) and "Dome pro HM5 3112" (120 Products). The footer is minimal, displaying only the "User.name" and "User.location" fields.
